### 1.1 AIIMS, New Delhi

An Act of Parliament in 1956 established the All India Institute of Medical Sciences (AIIMS) as an autonomous institution of national importance and defined its objectives and functions. By virtue of this Act, the Institute awards its own medical degrees and other academic distinctions. The degrees awarded by the Institute under the All India Institute of Medical Sciences Act are recognized medical qualifications for the purpose of the Indian Medical Council Act and notwithstanding anything contained therein, are deemed to be included in the first schedule of that Act, entitling the holders to the same privileges as those attached to the equivalent awards from the recognized Universities of India.

The other important objectives of the Institute are to bring together in one place educational facilities of the highest order for the training of personnel in all the important branches of health activity and to attain self-sufficiency in postgraduate medical education. The educational principles and practices being adopted are those which are best suited to the needs of the nation.

### 2.1 Six other AIIMS

Answer Option List

- Thalassemia
- Acute Leukemia
- Hereditary Spherocytosis
- Non-Hodgkins Lymphoma
- Hodgkin Disease
- Multiple Myeloma
- Megaloblastic Anemia
- Chronic Myeloid Leukemia

Lead in question

For each of the following patients as described in the scenarios below, identify the cause from the above Answer Option List

Case 1

A 30-year-old male presented with fatigue and pain abdomen of six months duration. On examination, he is anemic and has multiple, cervical lymph nodes around 1cms in size, hepatomegaly to the extent of 2 cms below costal margin and a spleen that is enlarged to 10 cms below costal margin. Laboratory examination reveals Hemoglobin of 7G/dL, Total Leukocyte Count of  $85.6 \times 10^9$  /L and Platelet Count of  $326 \times 10^9$  /L. The peripheral smear showed mild anisocytosis and poikilocytosis of Red Cells. Normoblasts were not seen. There were increased numbers of neutrophils and neutrophil precursors and few basophils were identified. Occasional blasts were seen. The Differential Count was: Blasts 1%, Promyelocytes 1%, Myelocytes 8%, Metamyelocytes 7%, Band Forms 22%, Neutrophils 41%, Eosinophils 2% Basophils 2%, Lymphocytes 12% and Monocytes 4%. Numerous platelets were identified singly or in clumps.

What is your diagnosis?

Case 2

A 25 year old male was detected to have pallor and mild icterus by his Family Physician whom he consulted for fatigue since about a year. He gives a history of cholecystectomy for gall-stone disease. He could not give any detailed family history except that his father and paternal grand-father were known to be "anemic". Neither he nor his family members ever needed blood transfusions. On Physical Examination, his spleen was palpable 3 cms below costal margin. Laboratory investigations revealed:

RBC	$3.62 \times 10^{12}$ /L
HGB	10.3 G/dL
HCT	30.1 %
MCV	85.1 fL
MCH	27.6 pg
MCHC	32.6 g/dL
RDW	17.9

Reticulocyte count was 15.6%

Serum Iron Studies did not reveal any abnormality

Hemoglobin electrophoresis was normal

Total Bilirubin was 3.2 mg/dL and the Conjugated Bilirubin was 0.5 mg/dL.

What is your diagnosis?

**Correct answer: (+)1/ No of scenarios**

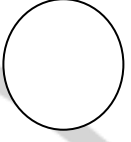

**Incorrect answer: (-) 1/No of scenarios**

In the above example there are two scenarios. Therefore the marks allotted for each scenario shall be: +1/2 for the correct answer identified from the Option List for each scenario and -1/2 will be deducted if an incorrect answer identified from the Option List for that scenario

The number of scenarios and therefore the allotted marks may vary accordingly. This means that if there are three scenarios, in the question, the marks shall be +1/3 and -1/3 for each scenario answered correctly or incorrectly respectively.

## 9 MINIMUM CUT-OFF SCORES

In accordance with decision of the Governing Body, AIIMS dated 14 September 2013, the minimum cut-off necessary in the Entrance Examination to determine eligibility for admission is **50<sup>th</sup> Percentile**.

## 10 PERCENTILE SCORES

Percentile scores are scores based on the relative performance of all those who appear for the examination

Basically, the marks obtained are transformed into a scale ranging from 100 to 0 for each group of examinees

**The Percentile Score indicates the percentage of candidates that have scored EQUAL TO OR BELOW that particular Percentile in that examination.**

The highest score is converted to a Percentile score of 100.

The marks obtained in between the highest and lowest scores are also converted to appropriate Percentiles

***The Percentile Scores would be converted to 3 decimal places to avoid bunching effect and therefore reduce ties***

The following is a further explanation of the interpretation of the scores in an examination with 100 candidates.

- If candidate A's Percentile score is 100, it indicates that amongst those who have taken the examination, 100% have scored either EQUAL TO OR LESS THAN the candidate A. It also indicates that no candidate has scored more than candidate A.
- If candidate B's Percentile score is 90, it indicates that 90% of the candidates who have taken the examination have scored either EQUAL TO OR LESS than candidate B. It also indicates that remaining candidates have scored more than candidate B.
- If candidate C's Percentile score is 50, it indicates that 50% of the candidates who have taken the examination have scored either EQUAL TO OR LESS than candidate C. It also indicates that remaining half of those who took the examination have scored more than candidate C.
- If candidate D's Percentile score is 30, it indicates that 30% of the candidates who have taken the examination have scored either EQUAL TO OR LESS than candidate D. It also indicates that remaining have scored more than candidate D.
- If candidate E's Percentile score is 1, it indicates that none of the candidates who have taken the examination have scored either EQUAL TO OR LESS than candidate E. It also indicates that all remaining candidates who took the examination have scored more than candidate.

#### **11 METHOD OF RESOLVING TIES**

The overall merit / ranking shall be based on the Percentile scores.

The method adopted for breaking ties (similar Percentiles) shall be:

- (i) Candidates obtaining higher aggregate marks in all the MBBS/BDS Professional Examinations shall be placed higher than candidates with lower aggregate marks in MBBS/BDS Professional Examinations.
- (ii) In case there is still a tie, after step (i) above, according to age (Date of birth), the older candidate shall get preference over the younger one.

#### **12. PREPARATION OF MERIT LIST**

**Merit list shall be prepared based on the Percentile Scores and applying the above method for resolving ties**

Overall and Category-wise merit Lists shall be prepared accordingly.
